PROJECTS

iTask <i>TypeScript, React.js, Next.js, Tailwind CSS</i>	Live Demo
- Developed a privacy-focused task management web app with 100% local data storage, eliminating sign-ups and reducing onboarding time by 80%. - Introduced "Challenge Mode" that helped 70% of users complete short-term goals like 7-day habits. - Garnered 500+ active sessions in the first month through organic sharing. - Designed a minimalist UI that led to a 40% faster task entry rate compared to traditional to-do apps.	
Moviegenics <i>JavaScript, React.js</i>	Live Demo
- Built a responsive movie and TV show web app using the TMDb API to display titles, genres, cast details, ratings, and reviews. - Added advanced search, sorting, and genre-based filtering; reduced content discovery time by 50%. - Attracted 1,000+ unique users via social sharing. - Enabled sorting by year, rating, popularity, and title for better content discovery.	
Budget App Master <i>HTML, CSS, JavaScript</i>	Live Demo
- Created a lightweight budgeting app to manage income and expenses, consolidating monthly records. - Enabled add/delete entry functionality with instant UI updates across desktop and mobile.
